THE PLATFORM

The most complete control over all your vehicles

All your fleet data in one dashboard: what is happening right now and what happened today, this week or this month.

Real-time tracking

See every vehicle on the map, with up-to-date information on location, status, speed, distance traveled and much more.

Detailed trip reports

A log of every movement, including departure and arrival times, average and top speed, stops made and the duration of each stop.

Trip history

View the routes driven by each vehicle on the map, with past dates, times and trips available to review.

Driver ID and tachograph status

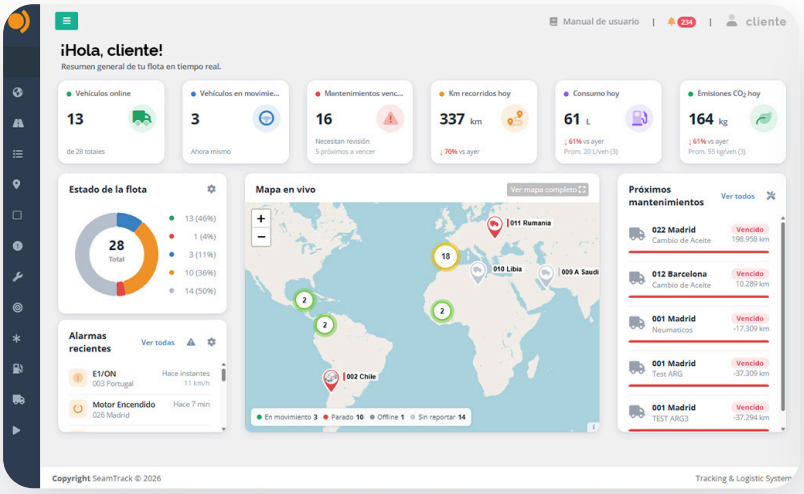

See in real time which driver is behind the wheel of each vehicle, along with the available tachograph status information.

Alerts and geofences

Instant alerts for speeding, zone entries and exits, stops and other events, on the platform and on your cell phone.

Access from anywhere

Web platform and mobile app to monitor and manage your entire fleet 24 hours a day, 365 days a year.

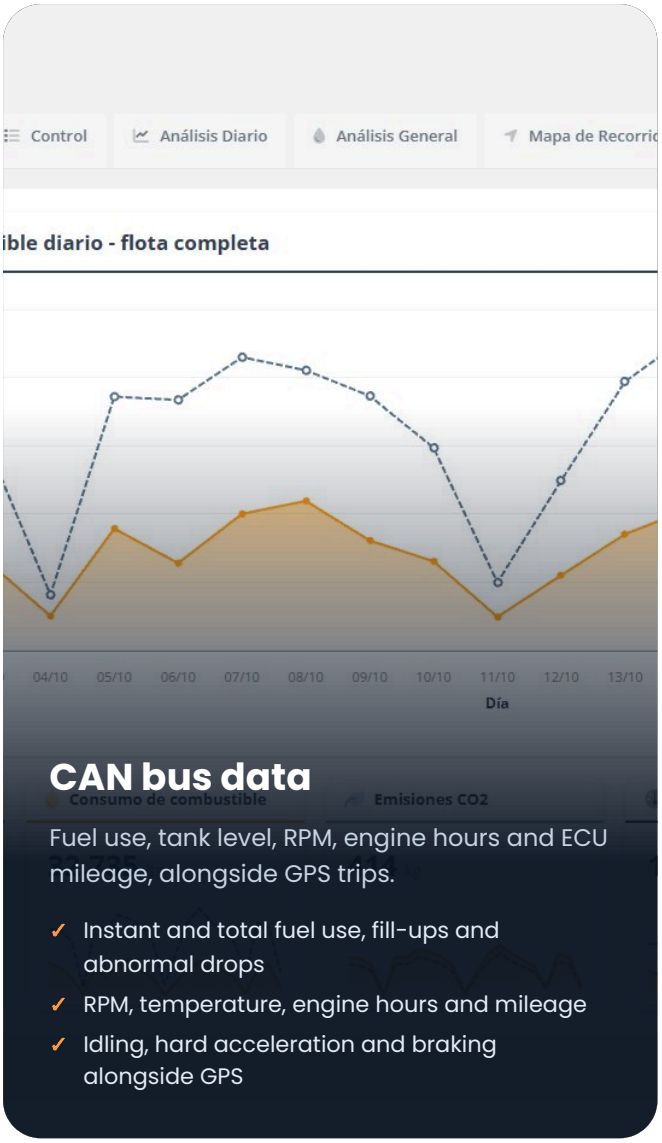

ACCESSORIES

More control for your fleet, on the same platform

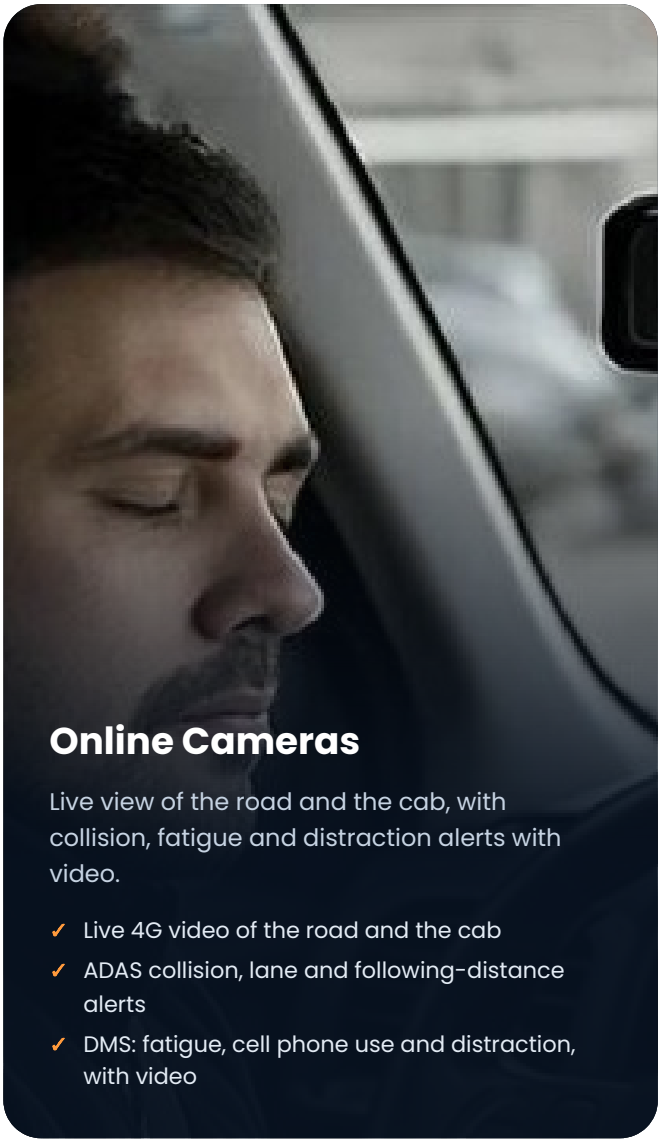

Engine data, AI-powered video and the Driver APP, integrated with your Vigilo tracker.

CAN bus data

Fuel use, tank level, RPM, engine hours and ECU mileage, alongside GPS trips.

- ✓ Instant and total fuel use, fill-ups and abnormal drops
- ✓ RPM, temperature, engine hours and mileage
- ✓ Idling, hard acceleration and braking alongside GPS

Online Cameras

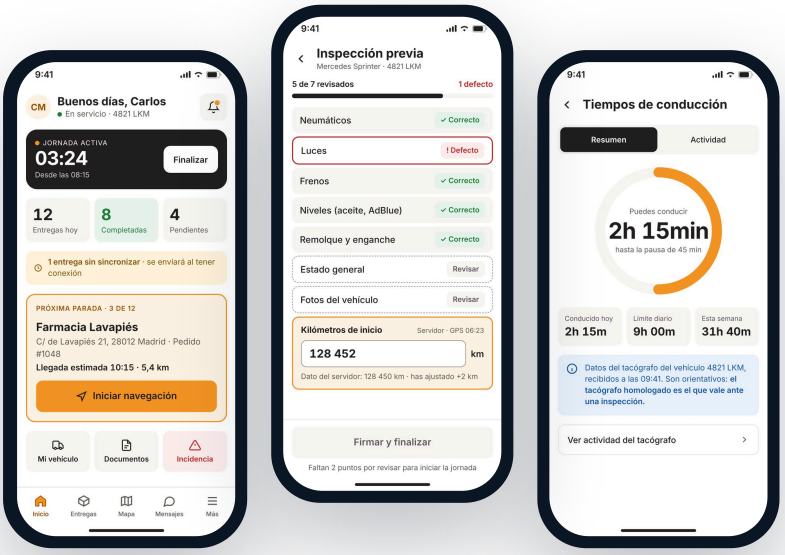

Live view of the road and the cab, with collision, fatigue and distraction alerts with video.

- ✓ Live 4G video of the road and the cab
- ✓ ADAS collision, lane and following-distance alerts
- ✓ DMS: fatigue, cell phone use and distraction, with video

DRIVER APP

The driver's workday, connected to your fleet

Start of shift, vehicle inspection, hours of service, documents and incidents on the driver's cell phone, with data from the GPS tracker already installed in your vehicles.

1 Assigned vehicle and verified mileage

The driver sees the vehicle assigned by the dispatcher and confirms the mileage from the tracker.

2 Paperless pre-trip inspection

Pre-trip checklist with defects, notes and photos before the shift starts.

3 Hours and documents at hand

Time until next break, daily and weekly driving, and documents with their expiration dates.

4 Incidents and messages with dispatch

Alerts with photos and location, quick replies and an SOS button.

Driver APP Fewer calls to dispatch, paperless inspections and mileage verified by GPS. More details and its own calculator on our website.

SAVINGS

What you save with GPS, the APP and cameras

Average GPS results and a ballpark example for the Driver APP and cameras. Plug in your own fleet data on our website.

With GPS (average customer results)	
Fuel	-9%
Mileage and maintenance	-10%
Overtime	-15%
productivity	+15%

With the Driver APP and cameras (example from this page)	
Driver APP: calls, paperwork and reports	US$10,080
Online Cameras: incident handling	US$576
Annual total	US$10,656

≈ US$10,656
per year in the examples

in annual savings with the Driver APP and cameras in this example, on top of GPS savings

Where you save per year in the examples

Driver APP: calls, paperwork and reports — **US$10,080**

Online Cameras: incident handling — **US$576**

HOW WE CALCULATE IT

PREVENTIVE MAINTENANCE

Your vehicle maintenance, up to date and never missed

Vigilo keeps track of the mileage, engine hours and dates of every vehicle and alerts you before each service. At a glance you see which vehicles need service now, which to schedule and which are in good shape.

Alerts by miles, hours or date

Every schedule runs on the actual mileage and engine hours from the tracker, not on estimates or spreadsheets.

Nothing goes overdue

Oil, filters, tires, brakes, state inspection: alerts before each due date.

Every vehicle's history

Every job is logged with its date, mileage and cost: useful for warranties, audits and when you sell the vehicle.

Fewer breakdowns on the road

A part replaced on time won't leave the vehicle stranded in the middle of a job.

Scheduled shop visits

Service is planned when it disrupts the least, not when the vehicle breaks down.

Safer drivers

Brakes, tires and steering checked on time: safer for your drivers and for everyone else on the road.

Where you save by keeping maintenance up to date

1. **Cheaper repairs**
   Scheduled service costs less than an emergency repair: parts at regular prices, no rush fees and no knock-on damage to the engine or transmission.
2. **No tow trucks or roadside calls**
   No towing and no sending a mechanic out to wherever the vehicle broke down.
3. **No lost jobs**
   No replacement vehicles, no canceled or subcontracted jobs and no customers waiting because of a breakdown.
4. **Less downtime**
   Drivers aren't left waiting around and the shop works by appointment, with no overtime.
5. **Less fuel**
   Clean filters, fresh oil and proper tire pressure help keep fuel use under control.
6. **Vehicles that last longer**
   Less wear on the engine, brakes and transmission, and a full service record that protects resale value.
7. **No fines or out-of-service orders**
   Inspections on time: no fines and no vehicles sidelined by expired paperwork.

3,175 US$
a year in the 10-van example

"Mileage and maintenance" line in the calculator on this page: 10 % fewer miles and related costs in the example of 10 vehicles. On top of that, every breakdown avoided.

Want to see it with your fleet?

We'll put together a demo and a custom proposal with the GPS and accessories you need.

STEP 1

Demo

We walk you through the platform and the app with real data from a fleet.

STEP 2

Proposal

Together we choose the right tracker and accessories for each vehicle.

STEP 3

Installation

We install the equipment and your fleet shows up on the platform from day one.
