PREVENTIVE MAINTENANCE

Your vehicle maintenance, up to date and never missed

Vigilo keeps track of the actual miles on your car, van or motorcycle and alerts you before your next oil change, service or state inspection. No windshield stickers and no dates jotted down on paper.

Alerts by miles or date

Your schedule runs on the actual miles logged by the tracker, with nothing for you to write down.

Nothing goes overdue

Oil, filters, tires, brakes and state inspection, with alerts before each due date.

Your vehicle's history

Every service is logged with its date and mileage: useful for your warranty and for a better resale price.

Fewer breakdowns

A part replaced on time won't leave you stranded on the road or ruin a trip.

Shop visits on your schedule

Book ahead, not after the vehicle has broken down.

Safer driving

Brakes and tires checked on time: safer for you and your family.

Where you save by keeping maintenance up to date

1. **Cheaper repairs**
   Timely service costs less than an emergency repair and prevents knock-on engine damage.
2. **No tow trucks or roadside waits**
   Fewer breakdowns that end with your vehicle on a tow truck and you waiting on the shoulder.
3. **Less fuel**
   Clean filters, fresh oil and proper tire pressure help you spend less on gas.
4. **A vehicle that lasts longer**
   Less wear and a service record that helps you sell it for more.
5. **No inspection fines**
   You get the alert before it expires, so you never drive with an expired inspection.

0 missed

services, oil changes and inspections

You choose what to keep an eye on and how many miles or months between services. Vigilo alerts you on time based on your vehicle's actual mileage.
